- You will then be able to search based on alphabetic, brand and generic name, and therapeutic class.

- Once you select a specific drug, you will be able to review more information like the tier. The summary plan descriptions for each medical plan will then have the information related to the price of the medication. These documents can be viewed at [apprissbenefits.com](http://apprissbenefits.com).

#### National Drug List 4-Tier

Your coverage has limitations and exclusions, which means that some drugs on this list may not be covered, depending on your plan's design. To find out more, please refer to your *Certificate/Evidence of Coverage* or your *Summary Plan Description*.

Preventive care drugs: We cover preventive care drugs with zero cost share in compliance with the Affordable Care Act (ACA). We cover contraceptives for members enrolled in a California plan according to state regulations.

Member cost share amounts for certain abuse-deterrent opioid analgesics may be lower in the state Maine due to state laws. For additional information, please call the customer service number on your ID card.

Most plans include our home delivery program at no extra cost to you. Find out more by going online to [anthem.com](http://anthem.com) or by calling the phone number for your health plan listed [here](#).

#### Definition of Status

Icon	Status	Definition
	Tier 1	Tier 1 drugs have the lowest cost share for you. These are usually generic drugs that offer the best value compared to other drugs that treat the same conditions.
	Tier 2	Tier 2 drugs have a higher cost share than Tier 1. They may be preferred brand drugs, based on how well they work and their cost compared to other drugs used for the same type of treatment. Some are generic drugs that may cost more because they're newer to the market.
